

Abhinav Chaudhary

Full Stack Developer

India | +91-9084166991 | iabhinavkakran.work@gmail.com | [linkedin.com/in/iabhinavkakran](https://www.linkedin.com/in/iabhinavkakran) | github.com/iabhinavkakran

PROFESSIONAL SUMMARY

Full Stack Developer with **5+ years** of experience building scalable web applications with **Node.js, Express.js**, and **React.js**, supported by **Java Spring Boot** for backend services. Skilled in **RESTful APIs, Microservices**, real-time systems (webhooks, chat), and secure authentication (JWT, OAuth2). Reduced system latency by **30%** and boosted data throughput by **50%**; experienced with MongoDB, PostgreSQL, Redis, Docker, Kubernetes, AWS, and CI/CD.

SKILLS

Languages: JavaScript (ES6+), TypeScript, Java, SQL, C

Frontend: React.js, Redux, HTML5, CSS3, Responsive UI Development

Backend: Node.js, Express.js, RESTful APIs, Microservices, Webhooks, WebSockets (Socket.IO)

Java (Secondary): Spring Boot, Spring Security, Spring Data JPA, Hibernate

Security & Integrations: JWT, OAuth2, Cryptographic Hashing, Razorpay, Shopify, TradingView

Databases & DevOps: MongoDB (Mongoose), PostgreSQL, Redis, AWS, Docker, Kubernetes, CI/CD, Firebase

Tools & Practices: Git, GitHub, Postman, VS Code, Jest, Agile/Scrum

Soft Skills: Technical Leadership, Problem Solving, Cross-functional Collaboration, Communication

WORK EXPERIENCE

Senior Software Developer (Full Stack)

Sep 2025 - Apr 2026

Saksoft Limited | Client: DMart eCommerce (Avenue Supermarts)

- Developed scalable **Node.js** and **Express.js** RESTful APIs and backend services for the Digital API team.
- Led development of the **USPA refund and return automation** system, integrating **3 commerce platforms** (Shopify, Omuni, Marmeto) with Node.js services and **React.js** dashboards.
- Integrated **Razorpay payment gateway** for automated refund processing, securing transactions with **JWT** authentication and cryptographic hashing.

Tech Stack: Node.js, Express.js, React.js, REST APIs, Shopify, Omuni, Marmeto, Razorpay, JWT

Full Stack Developer

Apr 2023 - Aug 2025

Toolbox OS

- Engineered a real-time **cryptocurrency trading algorithm** integrated with **TradingView** via secure webhooks, improving decision-making accuracy by **40%** and cutting system latency by **30%**.
- Optimized trading logic across **5 position types** (buy, sell, short, long, neutral), increasing trading efficiency by **35%** and execution precision in volatile markets.
- Architected an **Express.js (Node.js)** and **Java Spring Boot** backend for high-volume, real-time TradingView data, boosting throughput and processing speed by **50%**.
- Designed a **React.js** trading dashboard that visualizes live trading positions in real time.

Tech Stack: Node.js, Express.js, React.js, Java, Spring Boot, TradingView, Webhooks, Real-Time Data Processing

Project Engineer

Mar 2021 - Mar 2023

Wipro Limited

- Built scalable **RESTful APIs** and **Microservices** with **Node.js, Express.js**, and **Java Spring Boot**, enabling reliable data exchange across backend services.
- Secured **3 core modules** (transactions, authentication, authorization) with **JWT/OAuth2** for **React.js** clients.

Tech Stack: Node.js, Express.js, Java, Spring Boot, Microservices, REST APIs, JWT, OAuth2

PROJECTS

STG (Shorten The Gap) – MERN Stack Learning Platform

app.shortenthegap.com

- Launched a production **MERN stack** (MongoDB, Express.js, React.js, Node.js) learning platform where coaches create, manage, and deliver courses and video content.
- Implemented **real-time chat** and a custom **CMS** with a React.js front end and Node.js/Express.js RESTful APIs.
- Automated **email drip campaigns** with Node.js and MongoDB, boosting engagement and course completion.

Tech Stack: React.js, Node.js, Express.js, MongoDB, REST APIs, Real-Time Chat, CMS

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science

2016 - 2020

Meerut Institute of Engineering and Technology
